plant selection

Tropical Plant Rentals has a nursery on the outskirts of Sydney with a vast array of plants to enhance your event. Plant options are extensive with three ranges from which to choose: Specialty, Flowering and General. Whether you need vines for a vineyard, kentia palms to screen an area, or a large cactus for a Mexican night, we're bound to have it in stock. And if you need something extraordinary, we should be able to source it! (Just a small selection of plant options are displayed)

Tropical Plant Rentals' nursery has grown and nurtured specific plants to provide multiple screening and hedging solutions . Options range in density and height and include olive, topiary and magnolia specimens for open screening to conifer, ficus, and viburnum specimens for dense screening. Whether you need a screen to obliterate an unsightly area or a screen to provide an aesthetic backdrop, we'll have the solution.

Tropical Plant Rentals has three pot ranges from which to choose; Standard, Optimum and Trough. Standard cotta pots and cotta troughs make ideal event pots, being lightweight and also easily colour matched, should a colour other than our standard terracotta, black or white be required. Fibreglass pots are also available for upmarket style.

Tropical Plant Rentals has developed three plant wall systems to deliver eye catching displays for event hire; Cabinet Green Wall, TPR290 Green Wall and Media Wall. Cabinet Green Wall is finished in fibreglass and features a single wall of living plants, TPR290 Wall features four walls of living plants, and Media Wall features a single wall of real plant foliage combined with signage in a checkerboard design. Just superb!
